

# Your Corporate Edition of NatRef Textbook at Reduced Rate – Branded with Your Logo!

Perfect for corporate gifts or improving your team’s knowledge, take advantage of a reduced rate for 100 copies or more – AND add your own logo on the cover. There would be no advertising within the textbook.

## Written by the Best!

To address the global training barrier for the uptake of natural refrigerant systems, ATMOsphere partnered with technical publisher VDE Verlag to translate its 2019 German textbook on natural refrigerants into English.

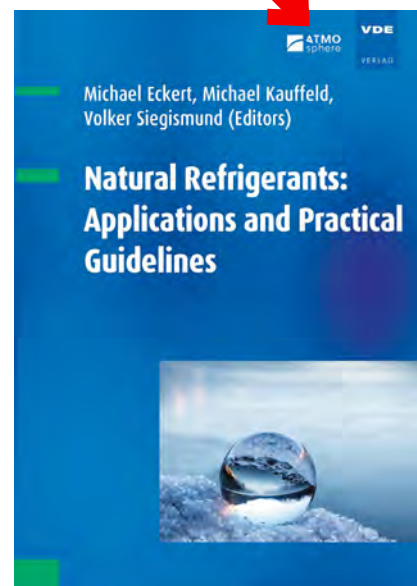

Written by the top academics in the field, “*Natural Refrigerants: Applications and Practical Guidelines*” offers a comprehensive practical guide to working with natural refrigerants, including CO<sub>2</sub>, ammonia, HCs, and water. The English edition has been improved and adapted for a global audience. [Find out more about the textbook](#)

## Single Copies

Print or e-book editions of the English translation are available at the [VDE online shop](#) for €59 each. Combined pricing (e-book + print) is available for €82.60.

## Multiple Copies

However, companies also have the option to buy printed copies in bulk (100 or more) and have their own branding on the cover. This option is ideal for distribution at trade shows or events, or for sharing with colleagues or customers. Investing in training means investing in the future of your market!

## Corporate Branded Print Copies

**100 copies:** €45/copy | total: €4,500

**200 copies:** €30/copy | total: €6,000

**300 copies:** €22/copy | total: €6,600  
(plus shipping and taxes)
